Full Description

Rental Dingli 0807AC Electric Scissor Lift

The Dingli 0807AC Electric Scissor Lift is a compact and highly efficient aerial work platform designed for indoor use in warehouses, factories, shopping centers, and other commercial or industrial environments. With a maximum working height of 7.8 meters and a platform height of 5.8 meters, it provides safe and stable access for maintenance, installation, and inspection tasks.

This model supports a maximum load capacity of 230 kg and includes an extension deck with a 113 kg capacity, allowing workers to reach wider areas without repositioning the machine. It features a narrow width of just 0.76 meters, enabling easy access through standard doorways and tight spaces.

Powered by a 24V battery system, the Dingli 0807AC offers silent, zero-emission operation—ideal for indoor environments. The machine includes non-marking tires, a tight turning radius, and a gradeability of 25%, making it both maneuverable and reliable. Safety features include automatic pothole protection, tilt sensor, and emergency lowering system.

Whether you're a contractor, facility manager, or rental provider, the Dingli 0807AC is an excellent choice for elevated work in confined indoor areas.
