Rental XCMG Telescopic Handler XT5017K

Brand: XCMG

Short Description

The XCMG XT5017K is a reliable 5-ton telehandler with a 17 m lifting height, designed for demanding construction and industrial applications. Available for rental from Rakaz Al Joudah (RJGC), it offers excellent stability, versatility with multiple attachments, and efficient material handling on site.

Full Description

XCMG XT5017K Telehandler – Versatile Lifting Solution for Demanding Sites

The XCMG XT5017K telehandler is a robust and versatile material handling solution, engineered to support a wide range of construction and industrial applications. With its powerful performance, precise control, and operator-friendly design, it helps improve productivity and safety on busy job sites.

Designed for tough working environments, the XT5017K combines strong lifting capabilities with excellent stability and maneuverability. Its telescopic boom and compatibility with multiple attachments (such as forks, buckets, and lifting jibs) allow one machine to handle different tasks, reducing the need for additional equipment and optimizing site logistics.

The spacious and ergonomically designed cabin offers the operator good visibility and intuitive controls, contributing to safer and more efficient operations. Durable components and reliable hydraulics make the XT5017K a dependable choice for daily rental use, even in demanding conditions.

Typical applications for the XCMG XT5017K telehandler include:

- Loading and unloading materials on construction and infrastructure projects
- Feeding production lines and handling pallets in industrial facilities
- Supporting maintenance and installation work at height
- Material handling in warehouses, logistics yards, and storage areas
- General lifting and positioning tasks in oil & gas, utilities, and plant sites

Available for rental from Rakaz Al Joudah (RJGC) in Saudi Arabia, the XCMG XT5017K telehandler is an ideal choice for customers seeking a professional, flexible, and cost-effective lifting solution for short- or long-term projects.

Technical Specifications

Rental XCMG Telescopic Handler XT5017K

Specification	Value
Model	XT5017K
Manufacturer name	XCMG
Country of origin	China
Basic machine	Telescopic Handler
Drive	Diesel
Electrical System	CAN bus with smart power solutions: space/cost-saving high intelligence. Anti-overturn protection and real-time data boost efficiency.
Hydraulic System	Load-sensitive with post-valve compensation: prioritizes steering ensures safety. Easy operation
Power System	National IV engine: strong power high torque
Transmission System	Famous-brand hydraulic transmission (2F/2R): adaptable easy to operate. 4WD/4WS with optional tires; rear suspension for comfort.
Cab	FOPS/ROPS certified: durable ABS interior full enclosure. Comfortable
Working Device	Section high-strength boom (rigid); synchronous telescoping. Auto/lateral leveling for complex sites.
Versatility	Quick-change mechanism: compatible with diverse attachments.
Length	6120mm (20ft)
Width	2560mm (8.4ft)
Height	2540mm (8.3ft)
Wheelbase	3490mm (11.45ft)
Track width	2254mm (7.5ft)
Min ground clearance	450mm (1.48ft)
Fork dimensions	1200×150×60mm (3.94×0.49×0.2ft)
Total weight (including forks)	15540KG (34296lb)
Tire specifications	14.00-24
Rated load	5000KG (11023lb)
Load center distance	600mm (1.97ft)
Max lifting height (to the upper surface of the forks)	17.1m (56ft)
Effective load at maximum lifting height	2260kg (5000lb)
Maximum reach (arm horizontal)	13.15m (43ft)
Effective load at maximum reach	1360kg (3000lb)
Variation time (rise)	≤18s
Variation time (fall)	≤18s
Boom extension time	≤23s

Specification	Value
Boom retraction time	≤22s
Fork carriage forward tilt time	≤8s
Fork carriage rearward tilt time	≤8s
Telescopic arm swing range	-4°□71°
Fork carriage tilt range (arm horizontal)	-14°□112°
Max speed	≥32 km/h (≥20mph)
Max traction force	≥60kN
Minimum turning radius (outer side of tires)	≤4300 mm (≤14.11ft)
Frame lateral adjustment angle	±10°
