HANGCHA CPCD70-XRW14B Diesel Forklift

Brand: Hangcha

Short Description

The **HANGCHA CPCD70-XRW14B** is a 7-ton diesel forklift designed for heavy-duty material handling applications. It is equipped with an ISUZU engine made in Japan, an Okamura transmission made in Japan, and a duplex mast with a 4,500 mm lifting height. The unit also features 2,440 mm forks, pneumatic tires, shifter and fork positioner attachments, and a four-valve hydraulic system. Additional features include full lighting, a flashing beacon, suspension seat, tool set, and double air-cleaner for dependable performance in demanding work environments.

Full Description

The **HANGCHA CPCD70-XRW14B** is a heavy-duty diesel forklift developed for professional material handling operations where dependable performance, durability, and operator confidence are essential. As part of HANGCHA's internal combustion counterbalanced forklift range, it is well suited to demanding working environments such as industrial yards, warehouses, logistics facilities, manufacturing sites, and general cargo handling applications.

This forklift is designed to support efficient lifting, transporting, loading, unloading, and stacking of heavy materials in day-to-day operations. Its diesel-powered configuration makes it a practical choice for businesses that require strong working endurance, quick refueling, and reliable performance in intensive duty cycles. In general, this class of forklift is valued for rugged construction, consistent handling, and practical usability across a wide range of industrial tasks.

HANGCHA's internal combustion forklift lineup is developed with attention to comfort, security, reliability, and all-around operational suitability. For many businesses, that translates into a machine that can contribute to smoother workflow, improved handling confidence, and better productivity in active material handling environments.

For companies looking for a robust forklift solution for heavy material movement, the **HANGCHA CPCD70-XRW14B** offers a practical balance of strength, operational reliability, and everyday usability. Like all industrial forklifts, it should be operated by properly trained personnel and supported by regular inspection and maintenance practices to help ensure safe and efficient long-term performance.

Technical Specifications

HANGCHA CPCD70-XRW14B Diesel Forklift

Specification	Value
Equipment Type	Diesel Forklift
Brand	HANGCHA
Model	CPCD70-XRW14B
Load Capacity	7,000 kg
Load Center	600 mm
Engine	ISUZU, made in Japan, 6 cylinders
Transmission	Okamura, made in Japan
Mast	Duplex, 4,500 mm lifting height
Forks	2,440 mm
Tires	Pneumatic
Attachments	Shifter &&&&& Fork Positioner
Hydraulic System	Four Valves
Lighting	Full Lighting, Flashing Beacon
Seat	Suspension Seat
Tools	Tool Set
Air Cleaner	Double air-cleaner
